AMIRUL HAZIQ

BIN HARUN

STUDENT

MY BACKGROUND

A student that eager to gain knowledge and ideas to pursue in Computer Science skills

PROFESSIONAL SKILLS

Software :

Adobe Illustrator

Adobe Photoshop

Canvas

Microsoft Office

Markup Language :

HTML, CSS, JavaScript

PHP, MySQL

Programming Language :

C, C++, Java

01

WEB-BASED PROJECT

A mock-website with connected database for University project

This screenshot shows the "Events" section of the website. It lists two events: "AmpangBurger.Co (Taman Saga Branch)" on 08.10.2019 at 20:00 and "Concert by Hujan, Faizal Tahir and more." on 09.10.2019 at 20:00. The interface includes a yellow header bar with the logo and navigation links for Event, Store, and Forum.

The login page has a gradient background transitioning from pink to blue. It features a large circular profile picture placeholder. Below it, the text "AMPANGBURGER.CO" and "LOG IN FOR ADMIN" is displayed, along with input fields for "USERNAME" and "PASSWORD" and a "LOGIN" button.

This screenshot shows the "Shopping Cart" page. It has a blue header bar with "Empty Cart" and a "Products" link. Below is a grid of burger options: Beef Burger (RM4), Chicken Burger (RM4), Egg Burger (RM3), Fish Burger (RM5), Beef Cheese Burger (RM5), and Chicken Cheese Burger (RM5). Each item has an "Add to cart" button. A "Back" button is also present.

The main menu page has a grey header bar with three vertical dots on the right. The content area is divided into three large colored boxes: a pink box labeled "PROFILE", a blue box labeled "PARTICIPANT", and a teal box labeled "EVENT". Each box has a diagonal cross pattern.
